

iBUTTON KEY RING

Description

The iButton key ring provides an effective low cost solution to hold an iButton for thumb pad applications or permanent attachment to an object.

Available in various colours, the key ring is designed to be used in conjunction with the Touch (TSS) socket for momentary contact applications, or the Touch & Hold (THS) socket, for applications that requires a continuous electrical contact with the iButton, until removed.

Features

- For use with F5 MicroCan
- Snap-in, no adhesives needed
- iButton can be removed if needed
- Weight: 2.6g +/-0.1g
